# Everything Under the Sun For Irrigation & Water Management

The 2014 Irrigation Show & Education Conference in Phoenix brings together everything under the sun for water management:

- **Innovation.** Explore 300+ exhibits for agriculture, landscape and golf.
- **Connections.** Network with decision-makers on the show floor and at social events.
- **Insight.** Track industry trends and initiatives for water-use efficiency and sustainability.
- **Education.** Upgrade your expertise with technical sessions, seminars and classes.

## Innovation & Insight

The 2014 Irrigation Show is the largest irrigation exhibition in the world, bringing together over 4,000 participants to explore water management systems, products and services. Solutions on display include:

- Boom systems
- Canal automation equipment
- Center pivot/lateral move systems and components
- Chemical and fertilizer equipment
- Controllers
- Drainage systems and fittings
- Drip/microirrigation systems and components
- Hand move systems and components
- Landscape/golf irrigation equipment
- Side roll systems and components
- Traveler hose, reels and components
- Weather monitoring equipment

## New Product Contest

Located on the show floor, the new product contest showcases cutting-edge technologies and product innovations introduced over the past year. Explore over 50 new, products for agriculture and landscape/golf irrigation, plus lighting and specialty products.

## Connections & Networking

Touch base with current business partners and grow your professional network. Maximize the return on your time at the show with fun social events and relaxed networking opportunities.

## Blending Borders International Reception

Enjoy a relaxed evening of conversation and networking with current and potential business partners. The Blending Borders international reception is open all international visitors, exhibitor and other attendees.

## Targeted Education

Get great ideas and learn new skills with the industry's best education for agriculture and landscape/golf irrigation.

Master basic and advanced techniques for agriculture, landscape and golf irrigation at IA education classes.

- Apply best practices and "how-to's" from targeted, one-hour irrigation seminars.
- Discover the latest cutting-edge research at a series of short technical sessions on precision, drip and sprinkler irrigation.

## International Agricultural Irrigation Summit

International demands for food, feed, fuel and fiber continue to surge. How farmers and ranchers will respond to these trends with limited water resources remains uncertain. Is the world on the verge of a global food crisis?

This half-day, interactive program will focus on global regulations, agricultural best practices and international sustainability initiatives. Join us to participate in the dialogue on challenges facing global agricultural production, partnership opportunities and efficient irrigation's role in sustainable, long-term solutions.

## Agriculture Tours

Available exclusively to international attendees, tours will travel to local farm operations to see irrigation equipment and practices in use.

## International Business Services

In partnership with the U.S. Department of Commerce, the 2014 Irrigation Show will include an on-site International Business Center, offering special services to international attendees:

- Lounge setting for relaxing and networking, plus conference rooms for business meetings.
- Interpreters.
- Export counseling by U.S. Department of Commerce trade specialists.
- Matchmaking services for international attendees and exhibitors.
- Export directory of show exhibitors.

Contact the commercial service officer at your local United States Embassy or Consulate to discuss attending the 2014 Irrigation Show.
